

THE MUSEUM OF FUN!

Recently during our English lessons, we have been reading an electronic book called The Museum of Fun. This book is on a website on the internet. It is hosted on the website which is called

<https://www.atcivelearnprimary.co.uk> Also they have different exhibits like let's dance, movie magic and hit the stage.

Let's Dance: My opinion of let's dance is that I find it interesting because I like dancing as well. Also the page is very bright and colourful. Meanwhile the thing I don't like is that Morris dancing doesn't have a video but street dancing does even though Morris dancing has been going on for way longer.

Hit The Stage: My opinion of hit the stage is I don't really like it because its dark and dull and boring.

Puppet exhibition: Also this slide doesn't make me happy. Because its also dark and dull and I don't like puppets because they are scary to me.

All Fun Of The Fair: My opinon of all fun on the fair is I find it fun and its bright and colourful and it has a great outstanding heading it is a good slide but there nothing to me that is bad about this slide.

Movie Magic: I like movie magic because I like movies and Its a good slide but it looks a bit boring and dark. There sum parts I find good 60% I find good.

Circus Clowns & Acrobats: My opinon of clowns and acrobats its kinda good but not a 100% I don't really

like clowns but I like the circus so that's not good. Also it's a good slide.

Festive Fun: I like festivals it's a slide that makes me happy the reason why is that its colourful and bright it has little animation I like it a lot and theres nothing bad about it.
