Parking

Our Infant children have spent a week focusing on road safety, how and where to cross roads safely, what places are safe places to play and what aren't, how we use our eyes and ears to look and listen for traffic.

Parking is becoming an issue again, children are **NOT** safe to cross between parked cars or on bends that they cant see round properly, please use caution when parking - think **CAN CHILDREN CROSS SAFELY?**

If the answer is no, then please do no park there, even for a minute! We will be putting cones out next to the power station as this is a terrible place to park and the children struggle to cross when cars are parked there. Thank you for your help with this matter
